### **Most Memorable Experiences:**

Our ASRT culture continues to shift in an incredible way. In the efforts of Being Seen, we have witnessed the power of our impact together through the efforts petitioning the Office of Management and Budget, various benchmarks achieved for professional advancement, and an overall revitalization emphasizing we are our best solution. This year had many unique events, and we have met each of them with purpose. Being visible is the most fundamental objective of our journey ahead. As we progressively see each other and are increasingly seen by the communities we serve, we must be intentional about effectively mobilizing to promote recognition, appreciation, advocacy and advancement. We are actively waking the sleeping giant — us!

### **Closing Remarks:**

Whether elected, appointed or serving in any capacity, we must all agree and commit to the significance of the job ahead beyond self-satisfaction or individual achievements alone. We are a remarkable profession at work. #BeingRAD is promoting quality patient care while refusing to be discounted as contributors of the same.
