Most Memorable Experiences:

Every meeting as an officer had an impact on me. The Board of Directors is an amazing group of hard-working, passionate individuals who have truly dedicated their time to supporting and guiding our profession. I will never forget how it feels to be in front of the movers and shakers of the profession, to be inducted as an officer and then participate in shaping the future of the profession. Also, every interaction with any staff member was so kind and professional, and I always felt like a priority.

Closing Remarks:

To me, there is nothing more important than supporting a lifelong profession. It takes a great deal of selflessness, time and passion. From members who participate in annual affiliate and ASRT meetings, to the Board of Directors, to our CEO who works tirelessly to stay abreast of everything that affects all technologists, the investment is well worth the returns. I have learned so much this past year that I will always take with me.

Thank you, ASRT!
