

**ASRT Fellow Application**  
(Reference Document Only)

The honorary category of Fellow is bestowed upon members who have made outstanding contributions to the radiologic technology profession and to the ASRT. This category was initiated within the ASRT to honor members who were dedicated to the organization and contributed unselfishly to the profession. The first class of 12 technologists was elevated to Fellow status in 1956. Each Fellow has committed to the advancement of the profession at the district, state, regional, national and international levels.

All applications must be submitted on a current Fellow application. Reformatting the online application will result in disqualification of the application. If additional space is needed, upload a separate sheet in the appropriate section. The minimum number of points required for consideration for elevation to Fellow is 80; 45 of these points must be earned in Section A. No more than 50% of the total points in each section may come from a single category within that section. Activities or service not appearing on the Fellow Point Evaluation Scale will not be reviewed.

**Applicant Information**
